Claims 6 and 13, 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no period at the end of claim 6. There are two periods in claim 13. In claim 14, section f, line 2, "want" should be ---wall---.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1, 2,3,8,9, rejected under 35 U.S.C. 102(b) as being clearly anticipated by Thorp et al. 5,971,171. Note foot 24, base 10 arcuate shaped paper files 50, 51.

Claims 4, 5, 7,10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Similar file racks are illustrated by Saylor et el. 6,227,384; Meltser 6,170,677.
